5. Comments

*Financial contributions have been in-kind. Contact with the sugar industry, electric utilities, and a variety of allied businesses and industries has been incorporated through participation in stakeholder meetings and by including such groups in dissemination activities. This includes industries based in the region as well as companies based elsewhere with special relevant experience and an interest in investing or supplying technology and services to those in the region. These industry representatives have paid their own way to participate in events, thus leveraging additional resources for the network.
